FEATURED PROJECT

AI-Powered Career Advisor & Job Aggregator — [Try it live](#)
Gemini API, AWS

React, Express.js, TypeScript, FastAPI, MongoDB, Docker,

- **Engineered a recommendation engine** using Google's **Gemini AI** that aggregates 1000s of job listings from 5 major platforms and analyzes user profiles to deliver personalized career, skill, and job relevance suggestions.
- **Designed a learning tracker** that generates personalized quizzes via Gemini AI and visualizes progress with dynamic graphs and skill bars, receiving positive feedback for enhancing user engagement.
- **Architected and deployed** the full stack, including an admin dashboard for system monitoring, with a backend on AWS and a frontend on Vercel, demonstrating end-to-end ownership.

EXPERIENCE

MERN Stack Developer

*Jul 2024 - Dec 2024
India (Remote)*

Contract

- Consolidated data from 3 platforms (Jira, ServiceNow, and Salesforce) into a MERN stack application, improving data accessibility and reporting efficiency
- Built 5+ custom React-based reports for in-browser PDF reporting, streamlining the data sharing process.
- Created 3 custom Jira plugins, extending Jira's default functionality and reduce manual data retrieval time.

Front-End Intern

*Oct 2022 - Mar 2023
Sukkur, PK*

National Incubation Center

- Developed the user interface for the startup website, contributing to the product's initial development.
- Collaborated with the team of 5, attending meetings to align on project goals.
- Managed project tasks for a team of 5 on Notion, ensuring alignment and timely completion of key milestones

PROJECTS

Amazon Product Scraper with contact details — [View Link](#) — *Next.js, PostgreSQL, FastAPI, BeautifulSoup*

- Built an Amazon product scraper, collecting data from over 6 regional Amazon websites using keywords.
- Implemented a postal code feature, enabling localized product data scraping.
- Scraped contact details for products, enhancing the data for lead generation.

SKILLS

Technologies/Frameworks	React.js, Next.js, Express.js, MongoDB, PostgreSQL, TypeScript, FastAPI, Supabase
Programming Languages	JavaScript, Python
Developer Tools	Git, Github, Docker, JIRA Cloud, Redis

EDUCATION

Bachelor in Computer Science, Sukkur IBA University

2021-2025

- **Relevant Coursework:** Data Structures, Algorithms, Database Systems, Parallel Computing, OOP
- **Leadership:** MLSA Sukkur Chapter (Outreach Team Lead), EST Students Welfare Organization (Team Lead), Final Year Project Team (Team Lead for 3 members)
